

# I DO EVERYTHING FOR MY GIRLFRIEND & GET NOTHING IN RETURN!

1

## Be optimistic.

If one is having an issue, the other can fix it. If both are indulged in pessimism, it becomes impossible to deal with misunderstandings and hard times.

2

## Look at the bright aspects.

If you have been treating her in an ideal way and in return, she did not materialize your expectations for a long time, your relationship had ended a long time ago.

3

## Think Positive.

If one can think positively, he is enjoying one of the best blessings of God, as positive thinking leads to the valleys and values of happiness.

4

## Consider her situation and point of view.

Sometimes we just think about ourselves and our priorities. We seldom try to consider the situation and opinion of our dear and near ones.

5

## Be limited in your expectations.

The happiest are those who are limited in their expectations. To burn oneself, if there is a hell on earth, it is the home of his own expectations to others.

6

## Acquire some of her hobbies.

Acquiring some of her hobbies will give a new touch to your mutual understanding. It will also help you in spending quality time with each other.

7

## Work on your inner and outer looks.

When we consider the relationship, good looks and the sweetness of the tongue show perfection to each other. Everyone likes a cleaned body and courtesy in behavior.

8

## Think above the Materialistic Stuff.

If you think that giving your girlfriend materialistic stuff is enough, you are wrong. You need to have an emotional bond with her, too.

9

## Don't take charge of her life.

If you intend to make your girlfriend happy in the gilded cage, which means taking charge of her life, you will not succeed. We can't make others happy.

10

## Have communication & be a good listener.

Understanding between love birds is very important. Better sittings of communication, with the intent of listening, render the best results.
